

# COVID-19 SECURE

COVID-19 Secure is a short e-learning course to help businesses and employees manage the return to work.

We understand business environments differ greatly, so we're offering versions for offices environments, retail and hospitality.

This course will cover:

- Risk assessments
- Health and hygiene
- Appropriate PPE
- Effective cleaning
- Control measures
- Employers and employees responsibilities
- How to stay informed
- And content specific to your working environment e.g. handling goods and working with customers

This training course will prepare your business to create the safest possible environment, and give your customers confidence.

**This  
course is  
only £7**
